

QUALIFIED RE-CERTIFICATION PROGRAM

We make staying in compliance simple.

Per OSHA and ANSI standards, your fall protection system must be inspected annually. HySafe recertification keeps you free from liability, and workers free from harm, year after year.

HySafe®

HYSAFE RECERTIFICATION MEANS ZERO WORRY

- When HySafe performs your recertification, we assume liability for the compliance of your fall protection system.
- Top quality, comprehensive service regardless of who originally installed your fall protection system.
- Free digital recordkeeping service - we take care of every detail.

COMPLIANCE

The easy way to meet all applicable industry standards

PROTECTION

Regular inspections increase worker safety at height

MAINTENANCE

Proactive upkeep and on-site repairs prevent accident

WHY RECERTIFICATION?

ANSI and OSHA standards require annual inspection of fall protection systems to maintain the integrity of the system and safety of your workers.

Recertification makes it easy to ensure you are always compliant and your workers are always protected. An inspection assesses compliance to all applicable ANSI and OSHA standards. Our team can perform on-site repairs, replacements as needed and proactive regular maintenance to prevent accidents and costly fines.

Our experts certify every system we install, and they can recertify your existing system, whether we installed it or not. Plus, our team can provide a 5-year engineering design review to keep your system compliant under changing conditions.

HySafe takes the worry out of certifying - and recertifying - your fall protection equipment and systems year after year.

A HySafe recertification provides complete peace of mind. We take care of it all, from inspection and repair down to the recordkeeping. This free service saves you time and ensures all your information is readily available when you need it, such as for an audit.

From the annual certification of your HySafe system to recertification of an existing system plus inspection of all your fall protection equipment, HySafe makes fall protection easy.

Every \$1 spent on safety creates 5x the ROI. Spending just \$100k on safety saves half a million dollars.
